

A. U. Thor and C. O. Author
How to prepare a color plate
pp. 2–3

The canvas (big red corners) is 17×10 cm big. At 300 dpi this is 2008×1181 pixels. Arrange your figures (blue) onto the canvas and export it as `CP_LastnameFirstname.png`. Put 1–3 lines of description into `CP_LastnameFirstname.txt`. Submit with final PDF version of your paper.

Andreas Xnai and John Jim Brown
What to do with money
pp. 4–7

Left: Money shown at the beginning of our project. Middle: our solution after 1025 iteration. Right: Converged – accordingly to the most known behavioural pattern.
